### **A special question for couples and families**

For families and guardians of children, try this experiment: With your kids, identify another person or organization that you could bless with some toys or clothing. Learn about that person/organization together. Who are they? Who benefits from their services? Why is it important to help them? Then, together, go through a small section of toys/clothes and have them decide which ones to keep and which to give away. (One idea: For every item kept, give one away). Remind your kids that there are other kids who would appreciate these toys/clothes as much as they do (if not more!).
